KALVIS ZUTERS

"The Ear" • oil on canvas • 80x100cm

Kalvis Zuters, (Born 1969, Jelgava, Latvia) graduated from the Department of Painting at the Latvian Academy of Art in 1998. He has participated in selected group exhibitions throughout Europe and USA and several solo exhibitions in Europe.

Painting occupies a prominent place in this small Baltic state. The Riga Academy of Art has produced a number of prominent artists, of whom the painter Kalvis Zuters is one of its more talented representatives. On a technical level he shows great artistry and a skilful brush technique. With his work Kalvis invites us to discover a still unknown world which is only present in the mind of the artist. His characters, based on myths and fairy tales, portray to the viewer soft glances from another place encompassing a technique of mixture and shades that demonstrates the artist's sensitivity. This technique makes him unique and incomparable to any other artist.

Figurative, with a twist of symbolism, realism and even cubism in a distinctive mixture in each of the works. Reminding us of iconic figures from old and newer times. Kalvis encourages the viewer to take their time to understand the message that lies within the work.

"Mirrorpool II" • oil on canvas • 21x25cm
