La Notte, 70x70 cm, 2018

Fabio Calvetti is a most exciting artist. It's great to see him at work. He was born and bred in Tuscany, the Italian region that conquered his heart and where he studied Fine Arts in Florence. On the other hand, he adores travelling ; his career got started in the United States and the great Occidental and Asian metropolises inspired him. The themes of this work are the urban landscape, intimacy and passion. He masters traditional painting techniques to perfection and furthermore, he is a complete artist who assimilates various mixed materials into a balanced structure, which results into a unique style. Fabio Calvetti has had solo shows in the major museums and galleries throughout the world.

Tutto l'Universo, 55x75 cm, 2018

FABIO CALVETTI
