“Art Collection 64 origami”, 82x82x6cm

Gisele Zanellato brings you into a colourful world inspired by the great names of painting, which a new modernity transposes onto the ancient art of origami. Each origami is the result of a careful selection of works by a single iconic artist.

The juxtaposition and accumulation of brightly colored folds bring to the work a surprising visual harmony, where order and rigor play with fantasy.

Born in 1960, Gisele Zanellato graduated from the Academy of Fine Arts in Mons where she lives and works.
